If that appeals to you, and in the bargain you get a terrific all-around driving experience conducted in sumptuous luxury, then this is your ride. Source: KBB.com * Classy styling with a hint of aggression; impressive power; tenacious road-holding grip; superb interior with top-end materials. Source: Edmunds * The 2014 Audi RS 5 is simply incredible. Adaptive xenon headlights, LED daytime running lights, and Singleframe grille create a sophisticated, toned, muscular body. Its 19-inch forged wheels enhance the side profile, and massive oval tailpipes blast the glorious V8 soundtrack to other motorists you pass by. As you crest 75 mph, a rear spoiler deploys automatically for high-speed stability. The cabin in the RS 5 is the result of taking the best in materials and technology, then laying it all out with the elegance inherent to the Audi approach. Because the RS 5 means business, a monochrome color scheme extends from floor to ceiling, while red instruments and LEDs hint at its underlying passion. Exclusive aluminum door sill inlays highlight the interior with Nappa leather enveloping the twelve-way sport front seats and door armrests. The signature electromechanical power steering system falls readily to your hands. With a 4.2L V8, this supercar's performance should come as no surprise. 60mph can be yours
